REG. FOR POSTING EMERGENCY MEDICAL INFO. AT JOBSITE		Revision No.	0
		Page:	Page 1 of 1

OSHA regulations require that certain emergency and medical information be posted at each jobsite. This information is as follows:

1. Ambulance
2. Hospital
3. Doctor
4. Fire Department

This information should be conspicuously posted on the jobsite. For best results, it should be posted near the telephones for emergency use.

SHES will normally provide this information on a printed card at the start of the job, with the job instructions. Should this information not be immediately available at the start of the job, call the SHES Office. Use the nearest hospital emergency room and the most accessible ambulance service in the area until told otherwise by the SHES Office.
